

## **Former Residents of Hahnemann and St. Christopher's Hospitals**

We are aware that there are several former residents from these programs that are in need of coverage to avoid a gap in coverage.

We have abbreviated our normal underwriting process to facilitate the application process. As part of this abbreviated process, we are requesting a signature page allowing us to verify information from MCARE in advance of quoting. Rather than use a number of questions we normally use to determine the appropriate classification, we will rely on the prior reporting of coverage to Mcare.

We also will rely on self-reporting of claims experience to expedite the process.

Use this link for the application that has been specifically designed for this process.
